

Please accept this letter as a request that you reject NAB's petition 04-160. As a resident in a rural mountain area who drives into a large city for work, I am dependent upon satellite for news, weather, and traffic. Personally, satellite radio is a technological breakthrough that has reduced the stress of my travel. Before I subscribed, I listened to audio books to avoid the same, mundane, banter from local stations. Thank you for your consideration.
